SPECIAL EVENT BY THE ITALIAN COUNCIL FOR AGRICULTURAL RESEARCH AND ECONOMICS (CREA)

WITHIN FAO SCIENCE AND INNOVATION FORUM

AGRO-INNOVATION WALK: INNOVATION AND SOIL HERITAGE FOR SUSTAINABLE AGRIFOOD SYSTEMS, LEAVING NO-ONE BEHIND

14 October 2024 | 12:30 – 15:00 (CEST)

From FAO HQ, Viale delle Terme di Caracalla 1, in the Atrium, to CREA Headquarters, Via della Navicella 2-4, Rome

The Council for Agricultural Research and Economics (CREA), one of the Italian Research Institutes partnering with FAO, opens the doors to its historic and prestigious headquarters, located just a short walking distance from FAO's Headquarters. Among its many research activities, CREA currently hosts the Secretariat of the International Union of Soil Sciences (IUSS), a valuable partner in advancing the soil mission, particularly considering the attention paid by different stakeholders to the challenge of nature-based solutions. Through the involvement of the IUSS, CREA facilitates networking and dissemination among several thousands of soil researchers, promoting nature-based solutions for soil health.

CREA will also present a series of flagship projects carried out with different partners all around the world, focusing on the topic "agricultural innovations leaving no-one behind". The meeting will also provide an opportunity to present current initiatives and explore future collaborations with delegates attending the World Food Forum. Additionally, this occasion offers a great chance to visit the historic CREA building, which was once the residence of an emperor and now stands as a symbol of Rome's rich heritage. The walk from FAO headquarters to CREA will take the participants along a scenic route, dotted with churches and monuments, providing an enjoyable and culturally enriching experience for all attendees.

AGENDA

12:30 | departure from FAO Atrium

13:00 | arrival at CREA Headquarters, Navicella - Light Lunch & Networking

13:45 – 14:30 |

· *Stakeholders to the challenge of nature-based solutions implementation of NbS in Italy.* Filiberto Altobelli, CREA Research Centre Agricultural Policies and Bioeconomy and Anna Dalla Marta, DAGRI University of Florence

· *Introducing the International Union of Soil Sciences (IUSS) Secretariat.* Irene Fabbri, IUSS Secretariat

· *CREA contributions to inclusive agriculture, leaving no-one behind & Feedback from participants*

14:30 | departure from CREA HQ

15:00 | arrival at FAO
