

1. What is the purpose of the survey?

The goal of this survey is to understand how project teams, teachers, and trainers are finding, using, or creating Education and Training materials. This information will help us:

- Identify the needs and challenges these groups face.
- Develop guidelines for contributors (uploaders) on the EU-FarmBook platform to ensure materials effectively reach their target audiences (students, advisors, farmers).

Since project teams, teachers, and trainers often serve as creators and disseminators of materials, their personal experiences are invaluable to shaping a user-centric platform.

2. Who is the target audience for the survey?

We are looking for input from two groups:

1. **Individuals with experience in EU-funded research projects (e.g., Horizon, Horizon 2020, EIP Agri Operational Groups):** Project coordinators, researchers, or team members involved in dissemination or exploitation activities.
2. **Educators in agriculture or forestry-related fields:** Professors, vocational school teachers, or technical trainers.

3. How will the survey be conducted?

- Format: Online survey.
- Languages: English, French, German, Dutch and Spanish
- Dates: Available from the 27th of November to 2nd of January.
- Duration: Approximately 15 minutes to complete.

4. What is the incentive for participation?

Participants can enter a **raffle** for a chance to win **one of five €50 gift cards**.

If selected as a winner, they can choose to:

- Receive a €50 Amazon voucher, or
- Donate €50 to a nonprofit through [GlobalGiving](#), which supports over **613 projects in Europe** and even more worldwide.

5. How will participant data be used?

- All survey responses will be anonymised to ensure privacy.
- Contact information provided for the raffle will be used solely for prize distribution.

The data we collect is kept in accordance with the **European General Data Protection Regulation (2016/679; GDPR)** and the **Belgian framework law of 30/07/2018** on the protection of individuals with regard to the processing of personal data.
